We guarantee you a good position. An ordinary common school education is sufficient to enter our schools. Come, let us start you on the road to success, so that you may draw a good salary 12 months each year. Remember, business men who employ bookkeepers and stenographers come to Business Colleges for help, not to other schools that make Business Departments secondary and a drawing feature. DEATH OF MRS. MCCLINTOCK.

Mrs. Eliza Phoebe McClintock-born Ferguson-died at the home of her daughter, Mrs. Samuel Vance, in Farmington, on Sunday August 22, 1909, aged 82 years, 10 months and 19 days. Mrs. McClintock was born in St. Louis county October 3d, 1827, and was married at the age of 19 years to Rev. George McClintock. Her husband died in 1846, since which time she has lived a widow. Five children were born to them, one dying in infancy, and one-Thomas McClintock-about three years ago. Three children survive-Mrs. Frances Vance of Farmington, Edward McClintock of DeLoess, and Mrs. Anna Lawrence of Cokesville City, Oregon. She also leaves behind 21 grandchildren and 12 great-grandchildren.

Mrs. McClintock was a member of the M. E. Church, South, having united with the Methodist Church when she was only fifteen years of age, and has ever since lived a consistent and devoted Christian life. She was much attached to her children, devoting her life to their rearing and their devotion to her was manifested in their loving care and ministrations as the burden of years weighed down upon her in her old age. Of her it may truly be said that "her children rise up to call her blessed," and at the close of a long well-spent life her gentle spirit passes into the realm of eternal peace and rest and joy.

The funeral took place from the residence of her daughter, Mrs. Vance, on Monday morning at 10 o'clock, Rev. Wm. Court conducting the solemn services, thence to the Odd Fellows Cemetery, where her body was laid at rest.

The furniture was carried into the Marks building, on an adjoining lot, and as soon as it could be made ready Mrs. Spaugh moved into it on Tuesday. In the meantime the good neighbors sheltered the family, and much sympathy is expressed on all sides with Mrs. Spaugh in the loss she has sustained and the inconvenience to which she has been put. As soon as the loss is adjusted by the insurance companies Mrs. Spaugh will have her residence, which is a comfortable two-story building, repaired and put in good condition again.

MASON'S BAKERY.

BADLY DAMAGED BY FIRE

Mrs. Spaugh Suffers Heavy Loss by Her Residence Taking Fire

Last Saturday afternoon between two and three o'clock, in some mysterious way not yet accounted for, the residence of Mrs. Eva L. Spaugh, on First Street, caught on fire in one corner of the kitchen attic, and was ablaze before it was discovered by neighbors. As soon as the alarm was given and the fire brigade with the hose could get there, the work of fighting the flames was begun. The crowd attracted by the alarm lent willing hands in removing the household goods and most of the furniture was taken out, but as is nearly always the case under excitement much of it was badly damaged. After the hose was attached to the fire plug and the water turned on the flames were soon under control, but the kitchen was almost wholly destroyed, and the roof of the main dwelling so badly damaged that practically all of it will have to be replaced. The water, flowing down through the house, did fully as much damage to the plastering as the fire did to the roof, but of course that is something that could not be avoided.

It will take probably \$1,200 or more to put the building back in as good condition as it was. Besides the loss on the building and the damage done to furniture, the family lost all their winter clothing which was stored in the attic, raising the loss to something like \$1,700 or \$1,800. There is no insurance on \$1,500 on the building, and \$300 on the household goods.

How the building caught on fire is not known. Miss Bertie Spaugh was the only one home at the time. She had a fire in the gasoline stove in the kitchen and in small gasoline stove in the bath room. She had gone over to Mrs. Shaw's for a few minutes and was there when the alarm was given. She ran home and into the kitchen and bathroom turning off the fire in the gasoline stoves, but there was no sign of fire in these rooms, nor anyway by which a blaze from the stoves could have connected with the corner of the attic where the fire started. The only practical theories of how the fire could have started are, either spontaneous combustion among some of the things stored there, caused by the intense heat of the sun beating down on the roof, or that a match left in a pocket of some of the clothing or carried there by mice may have been ignited by the heat engendered by the intense rays of the sun against the roof.

The furniture was carried into the Marks building, on an adjoining lot, and as soon as it could be made ready Mrs. Spaugh moved into it on Tuesday. In the meantime the good neighbors sheltered the family, and much sympathy is expressed on all sides with Mrs. Spaugh in the loss she has sustained and the inconvenience to which she has been put. As soon as the loss is adjusted by the insurance companies Mrs. Spaugh will have her residence, which is a comfortable two-story building, repaired and put in good condition again.

FIREMEN'S MARATHON.

The "Marathon" race from Farmington to Woodland Park, which will be run in connection with the picnic given by the City Fire department on Labor Day, is attracting a good deal of attention. The Firemen will give two handsome silver cups as prizes, and it is probable that a number of athletes of this section will enter. The start will be from Farmington at 5:30 p.m.
